SUMMARY:

Final-year Bachelor of Computer and Information Sciences (Application Development) student with a current academic average of 74.5% and a completed Higher Certificate in Web and Application Development. Experienced in developing web, mobile, and cloud-based applications using C#, Kotlin, ASP.NET MVC, SQL, Firebase, and Microsoft Azure.

Passionate about building user-focused software solutions and continuously expanding my technical expertise through academic and personal projects. Seeking an opportunity to contribute and grow as a Graduate Software Developer.

PROJECTS:

[HTTPS://GITHUB.COM/ANGELOR19?
TAB=REPOSITORIES](https://github.com/AngeloR19?tab=repositories)

EVENT EASE - EVENT MANAGEMENT SYSTEM

ASP.NET MVC, SQL Server, Entity Framework, Azure

- Developed a web-based event management platform with CRUD functionality and booking validation.
- Implemented SQL database integration and deployed the application using Azure.

BUDGETPRO - PERSONAL FINANCE MOBILE APP

Kotlin, XML, Firebase, Room Database

- Developed an Android application for expense tracking, budgeting, and goal management.
- Implemented authentication, achievements, and persistent data storage

GLMS MANAGEMENT SYSTEM

C#, ASP.NET MVC, Entity Framework, SQL Server

- Developed a web-based management system for managing records and workflows through a user-friendly interface.
- Implemented CRUD functionality, Entity Framework database integration, and validation features.
- Applied software design patterns and MVC architecture to create a scalable and maintainable application

CYBERSECURITY AWARENESS CHATBOT

C#, .NET

- Developed an educational chatbot featuring sentiment detection, memory functionality, and speech synthesis
